

NETZERO
PARTNERSHIP

NDC 3.0 Guidebook for Industrial Decarbonization

VOLUME 1

JANUARY 2025

UNITED NATIONS
INDUSTRIAL DEVELOPMENT ORGANIZATION

The Net Zero Partnership for Industrial Decarbonization is a global initiative led by UNIDO that supports developing countries with transitioning towards low-carbon steel, cement and concrete. The project offers tailored policy support, promotes decarbonization solutions, and encourages international collaboration to achieve net zero emissions by 2050.

TABLE OF CONTENTS

Definitions	4
Acronyms	7
1. General Introduction	9
1.1. Introduction	10
Scope and Objectives	10
About the NDC 3.0 Guidebook for Industrial Decarbonization	11
1.2. The Dynamics of NDC Enhancement and Tracking	15
Updating NDC Commitments	15
Monitoring Progress: Tracking and Reporting on NDC Implementation	17
1.3. Definition of the Industrial Sector	18
2. NDC Industrial Decarbonization Enhancement Areas	20
2.1. Overview	21
PROCESS Strengthening Institutional Mechanisms for Design, Implementation and Tracking	22
DATA Improving Data Accuracy and Consistency	33
TARGETS Increasing the Ambition of Targets	42
3. NDC Industrial Decarbonization Enhancement Approach	57
3.1. Overview	58
3.2. Step by Step NDC Enhancement Approach	59
Preparation	59
Enhancement	64
Validation	88
Implementation	90
Annexes	94
Annex 1 Industrial Decarbonization Country Assessment Checklist	95
Annex 2 Generic NDC Workplan for Industrial Decarbonization	104
