# The State of Investor Climate Transition in India

# The India investor sample:

- 15 influential institutional investors
- INR101 trillion (US\$1.2 trillion) in collective assets under management (AUM)

A growing proportion of India's investors are aligning with the overall Asian investor benchmark in key areas such as:

1. Recognition of climate risks/opportunities
2. Investment policies on climate integration
3. Board-level oversight of climate change
4. Reporting on voting decisions
